

# Municipal Financing

## Special consideration for Municipal Leases

- No down payments/no deposits
- One-page application
- No financials needed for transactions under \$100,000
  - Purchase orders requested over \$25,000
  - Opinion of Counsel required over \$75,000
- Soft-cost financing available (installation, delivery and freight)

### Non-Appropriations:

Most government agencies are blocked (by statute) from entering into financial commitments that extend beyond the current fiscal year. A non-appropriations clause is included in Marlin's finance agreements, which means in the event that funds are not appropriated for any legal reason, the lease is terminated and the equipment must be surrendered.

### Flexible Structuring Options:

- Monthly or quarterly billing
- Deferred Payment Plans - up to 90 days from equipment installation
- Step Payment Structures - payments step up or down to match cash flow
- Seasonal Payment Plans - to match seasonal cash flow
